N-OIL

SUPER NOVA ENGINE OILS

N-OIL SUPER NOVA 0W-20

Full synthetic engine oil formulated with high-quality base stocks and advanced additive technology. This product meets API SP performance standards and is suitable for both gasoline and diesel passenger cars manufactured from 2020 onwards, delivering superior cleaning and protection performance.

Advantages:

- Full protection of engine parts
- Prevents damage to exhaust filters
- Reduces fuel consumption
- High resistance to oil aging

N-OIL SUPER NOVA 5W-20

A high-performance semi-synthetic engine oil for diesel engines. It meets API CL-4 performance standards and is suitable for commercial vehicles and industrial equipment, providing excellent wear protection even under extreme load conditions.

Advantages:

- Excellent wear protection for heavy-duty engines
- Prevents damage to exhaust systems
- Reduces oil consumption under heavy load
- Extended service life for diesel engines

N-OIL SUPER NOVA 5W-30

N-OIL SUPER NOVA 5W-30 is a full synthetic high-performance motor oil suitable for both diesel and gasoline engines. API SN/SP certified, this product meets the requirements of modern turbo engines.

Advantages:

- Full protection of engine parts
- Prevents damage to exhaust filters
- Reduces fuel consumption
- High thermal stability

N-OIL SUPER NOVA 5W-40

N-OIL SUPER NOVA 5W-40 is a semi-synthetic motor oil that delivers stable performance across a wide temperature range in both diesel and gasoline engines. It is ideal for heavy traffic and city driving.

Advantages:

- Protection across a wide temperature range
- Maintains engine cleanliness
- Reduces fuel consumption
- Extra barrier against wear

N-OIL SUPER NOVA 10W-30

N-OIL SUPER NOVA 10W-30 is a semi-synthetic motor oil with a balanced viscosity structure for everyday-use vehicles. It offers reliable protection in temperate climate conditions.

Advantages:

- Balanced viscosity performance
- Protection against corrosion
- Fuel economy
- Preserves seal flexibility

N-OIL SUPER NOVA 10W-40

N-OIL SUPER NOVA 10W-40 is the most preferred product in the series. It is formulated to provide reliable engine protection under all conditions in both diesel and gasoline engines.

Advantages:

- Full protection of engine parts
- Protection against sludge formation
- Reduces fuel consumption
- Wide range of applications

N-OIL

ULTIMATE ENGINE OILS

N-OIL ULTIMATE 15W-40

N-OIL ULTIMATE 15W-40 is a semi-synthetic, high-performance motor oil developed for heavy-duty diesel engines. It withstands intensive working conditions in trucks, buses, and construction equipment.

Advantages:

- Heavy-duty engine protection
- High alkaline reserve (TBN)
- Thermal stability in turbo diesel engines
- Extended service life

N-OIL ULTIMATE 20W-50

N-OIL ULTIMATE 20W-50 is a semi-synthetic, high-performance motor oil ideal for diesel engines operating at high temperatures. It delivers strong wear protection in hot climate conditions.

Advantages:

- High-temperature protection
- Strong oil film strength
- Suitable for heavy-duty fleet use
- Extended engine life

N-OIL ULTIMATE SAE-50

N-OIL ULTIMATE SAE-50

N-OIL ULTIMATE SAE-50 is a classic, reliable single-grade diesel engine oil. It is preferred for older-generation engine technologies and equipment operating continuously under heavy loads.

Advantages:

- High viscosity index
- Reliable in construction and agricultural machinery
- Oil film protection in extreme temperatures
- Compatible with classic engines

N-OIL

N-OIL ULTIMATE HD-50

N-OIL ULTIMATE HD-50 is a single-grade motor oil for heavy-duty diesel engines. It provides maximum protection for generator, compressor, and industrial equipment engines.

Advantages:

- High durability
- Internal engine cleanliness
- Protection under continuous load
- Strong detergent-dispersant additive

N-OIL

N-OIL ULTIMATE HD-60

N-OIL ULTIMATE HD-60 is a single-grade diesel engine oil that delivers superior protection in demanding operating conditions thanks to its high viscosity index.

Advantages:

- High viscosity index
- Heavy-duty engine protection
- Thick lubricating film
- Industrial engine compatibility

N-OIL ULTIMATE HD-70

N-OIL ULTIMATE HD-70 is the highest-viscosity product in the line. It delivers maximum protection for heavy-duty diesel engines operating under extreme load and temperature conditions.

Advantages:

- Extreme load protection
- Very high viscosity index
- Mining equipment compatibility
- Oil film integrity

GEAR OILS

N-OIL GEAR OIL SAE 90

N-OIL SAE 90 Gear Oil is a mineral-based product that provides excellent extreme-pressure protection for manual transmissions and differentials. It is API GL-5 certified.

Advantages:

- Extreme-pressure (EP) protection
- Durable oil film
- Anti-foam formula
- Transmission efficiency

N-OIL GEAR OIL SAE 140

N-OIL SAE 140 Gear Oil is a high-viscosity product for gear systems operating under heavy load. It is preferred for rear axle and differential systems of heavy-duty vehicles.

Advantages:

- High viscosity protection
- Gear wear resistance
- High oxidation resistance
- Long service life

N-OIL GEAR OIL 80W-90

N-OIL 80W-90 Gear Oil delivers effective performance across a wide temperature range thanks to its multigrade formulation. It provides strong protection for manual transmissions and differentials.

Advantages:

- Wide temperature range performance
- Cold-start fluidity
- Corrosion and rust prevention
- Extended gear life

N-OIL GEAR OIL 85W-140

N-OIL 85W-140 Gear Oil is a multigrade, high-viscosity product designed for heavy-duty vehicles. It provides maximum protection in gear systems subject to high torque transfer.

Advantages:

- High torque protection
- High extreme-pressure (EP) additive level
- Micro-welding prevention
- Heavy-duty durability

HYDRAULIC OILS

N-OIL HYDRAULIC OIL ISO 32

N-OIL Hydraulic Oil ISO 32

N-OIL Hydraulic Oil ISO 32 is a low-viscosity oil developed for sensitive hydraulic systems. It complies with the DIN 51524 Part 1 standard.

Advantages:

- Compatibility with sensitive systems
- Low friction
- Fast response performance
- DIN 51524 compliance

N-OIL HYDRAULIC OIL ISO 46

N-OIL Hydraulic Oil ISO 46 is the most widely used hydraulic oil grade in construction, agricultural, and industrial equipment. It provides superior wear protection.

Advantages:

- Superior wear protection
- System stability
- Water demulsibility
- Broad equipment compatibility

N-OIL HYDRAULIC OIL ISO 68

N-OIL HYDRAULIC OIL ISO 68

N-OIL Hydraulic Oil ISO 68 is formulated with a high-viscosity structure for hydraulic systems operating under heavy loads. It delivers superior performance in hot climate conditions.

Advantages:

- Heavy load protection
- Hot climate performance
- High pressure resistance
- Oxidation resistance

N-OIL

AUTOMATIC TRANSMISSION OILS

N-OIL ATF II

N-OIL ATF II

N-OIL ATF II is a fully synthetic transmission fluid developed for automatic transmissions. It ensures smooth gear shifts.

Advantages:

- Smooth gear shifts
- Long-lasting transmission protection
- Oxidation resistance
- Thermal stability

N-OIL ATF III

N-OIL ATF III is a fully synthetic, high-performance transmission fluid developed for modern automatic transmissions.

Advantages:

- Wide temperature stability
- Wear protection
- Anti-foaming agent
- Hydraulic pressure stability

N-OIL ATF VI

N-OIL ATF VI is a fully synthetic transmission fluid, specially formulated for the latest generation automatic transmissions.

Advantages:

- Superior oxidation resistance
- Friction stability
- Compatibility with multi-stage transmissions
- Extended drain interval

N-OIL

ANTIFREEZE

N-OIL ANTIFREEZE PINK

N-OIL ANTIFREEZE PINK

N-OIL Antifreeze + Coolant (Pink) is a ready-to-use cooling fluid with a long-life formula, suitable for all vehicle types. It provides protection from -40°C to +129°C.

Advantages:

- Wide temperature protection
- Rust and corrosion prevention
- Ready-to-use formula
- Extends radiator lifespan

N-OIL ANTIFREEZE GREEN

N-OIL ANTIFREEZE GREEN

N-OIL Antifreeze + Coolant (Green) is a ready-to-use, high-concentration cooling fluid. It offers full compatibility with aluminum and copper alloy components.

Advantages:

- High concentration
- Rust and corrosion prevention
- Metal component compatibility
- Four-season protection

N-OIL ANTIFREEZE BLUE

N-OIL ANTIFREEZE BLUE

N-OIL Antifreeze + Coolant (Blue) is a ready-to-use antifreeze and coolant fluid suitable for all vehicle types.

Advantages:

- Compatible with all vehicle types
- Wide temperature protection
- Compatibility with metal and plastic
- Long-term protection

○ BRAKE FLUID

N-OIL PROFESSIONAL BRAKE FLUID DOT 3

N-OIL Professional Brake Fluid DOT 3 is a synthetic brake fluid compliant with SAE J1703 and J1704 standards. It has a high boiling point.

Advantages:

- High boiling point
- Reduces the risk of vapor lock
- Compatibility with rubber seals
- SAE standard

N-OIL PROFESSIONAL BRAKE FLUID DOT 4

N-OIL Professional Brake Fluid DOT 4 is a high-performance synthetic brake fluid. It has a higher boiling point compared to DOT 3.

Advantages:

- High-performance formula
- High dry/wet boiling point
- FMVSS 116 standard
- Suitable for heavy-duty use

N-OIL PROFESSIONAL BRAKE FLUID

N-OIL Professional Brake Fluid (General Purpose) is a professional-grade brake fluid developed for professional use, compatible with DOT 3 and DOT 4 brake systems.

Advantages:

- DOT 3/4 compatibility
- Moisture absorption resistance
- Stable viscosity
- Professional reliability

GREASES

N-OIL PROFESSIONAL CALCIUM GREASE

N-OIL Professional Calcium Grease

N-OIL Professional Calcium Grease is a professional calcium-based grease with high water resistance. It provides long-lasting protection for bearing, bushing, and chassis lubrication.

Advantages:

- High water resistance
- Long-lasting protection
- Corrosion resistance
- Bearing and chassis compatibility
